

LANCELIN GOLF CLUB

#10 of Perth's Best Public Golf Courses

An insight into the Lancelin Golf Club Course development and how you can help.

Sponsorship Package

A Brief History

The location and layout of the golf course amongst the Lancelin sand dunes is considered one of only a few true Links courses in Australia.

This "JEWEL in the DUNES" provides a challenging and splendid venue for golfers of all ages and abilities.

Lancelin golf course was developed by Jock Borthwick, a retired professional golfer, in the late 1970's. The Lancelin Golf Course is considered one of only a few true links courses in Australia and provides a challenging and splendid gem for golfers of all ages and abilities.

The golf course is very accessible being only an hour and a half drive from the airport and Perth City, less than an hour from the northern suburbs and just minutes from the heart of Lancelin.

The Lancelin Golf Club has 27 tees serving 9 grass greens, it also has an additional 9 holes not yet grassed but which provided the most stunning views. These ungrassed holes tend to be used only in the winter.

Sponsorship opportunities provide individuals, small business and corporate organisations a range of opportunities to be part of the development and maintenance of this fantastic community asset and to be part of this significant regional recreational hub.

The Lancelin Golf Club invites you to become a valued partner and sponsor, working together to promote golfing and social activities to the local regional and wider community that includes state, national and international visitors.

As a valued sponsor, you will receive positive brand awareness and the opportunity to promote your organisation through course signage, marketing collateral and events.

Our sponsorship opportunities have been designed to give you flexibility in choice and each have a number of levels that provide many benefits for you and your organisation.

Why Sponsor at all?

Lancelin Golf Club stands alone and is wholly self funding. Its income is derived from memberships, green fees, donations, sponsorships from businesses and private individuals. Maintenance of the course and greens is possible only due to the team of stalwart volunteers who tirelessly and unselfishly give their time and effort to keep the course in tip-top condition. Without external support from people like you and our volunteers, this JEWEL IN THE DUNES would probably not exist.

Does Lancelin need a golf course?

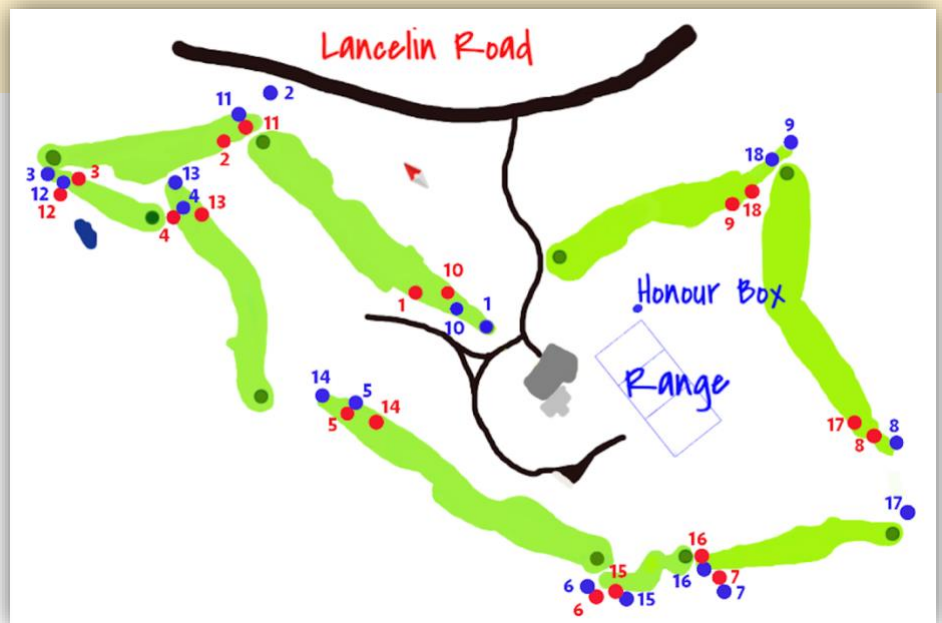

A good question! The course is a big draw card for bringing visitors into town. It provides a venue for all of the town's golfers, young and old to meet on a regular basis and exercise the body and mind, it keeps them fit and healthy. It spawns good opportunities for fellowship. In short, it is a vital venue for the town of Lancelin.

How is my sponsorship used?

Another good question! Although we can sometimes receive grant funding, by law these grants can only cover a third of the cost of any expenditure; the rest must be found by the club in the form of financial support, i.e. SPONSORSHIP! Your much appreciated gifts of sponsorship "in kind" or "monetary" offset the costs of installing or maintaining reticulation, turf and machinery.

The club's goals are to: Promote positive mental health through the principles of ACT-BELONG-COMMIT.

1. Ensure that what we have we keep in A1 condition.
2. Train and maintain an army of volunteers how to get the best from what we have.
3. Expand membership.
4. Be always open for new business.
5. Welcome visitors.
6. Run enjoyable and cheap golf for our members and visitors.
7. Be open to new ideas, regularly review our performance.
8. Act on our findings.
